

REPUBLIC STAGGARD TREAD TIRES

A car equipped with Republic Staggard Tread Tires is under complete control on wet and slimy pavements. The wheels will follow your slightest direction without slipping or skidding.

The Motorist Safeguard

The big solid rubber studs are arranged in six rows on the tread in such a way that they exert a positive resistance to side pressure from any direction at angles with the straight course and so make slipping or skidding impossible. Get a copy of our book "The Tire Perfect." Sent free on request.
